Notes:

1/ Yale Center for Environmental Law and Policy (YCELP) and the Center for International Earth Science Information Network (CIESIN) of Columbia University, in collaboration with the World Economic Forum and the Joint Research Centre of the European Commission.

2/ Since 2000, subject to availability.

3/ The numerical value of the graph is defined as the inverse of: Bangladesh's rank divided by number of countries for which data is available. Hence, a positive slope implies progress, a negative slope implies deterioration in Bangladesh's ranking relative to other countries.

4/ GDP stands for Gross Domestic Product; PPP stands for GDP measured in purchasing power parity.
