Memorandum:

On June 30, 2008, the International Monetary Fund (IMF) released a new report entitled: "Food and Fuel Prices—Recent Developments, Macroeconomic Impact, and Policy Responses" see: <http://www.imf.org/external/np/pp/eng/2008/063008.pdf>

This IMF report provides a first broad assessment of the impact of the surge in food and fuel prices on the balance of payments, budgets, prices, and poverty of a large sample of countries.

For an excerpt of graphs and tables that include Bangladesh (pdf), see:

http://www.bangladeshstudies.org/files/IMF_excerpts.pdf

While neglected until recently, the Bangladesh food security literature is going back for some time.

Worthwhile to mention is, for example:

Ravallion, Martin (1990) | Rural Welfare Effects of Food Price Changes under Induced Wage Responses: Theory and Evidence for Bangladesh | *Oxford Economic Papers*, Vol. 42, No. 3 (July), pp. 574-585.
